PROMA IDENTITY

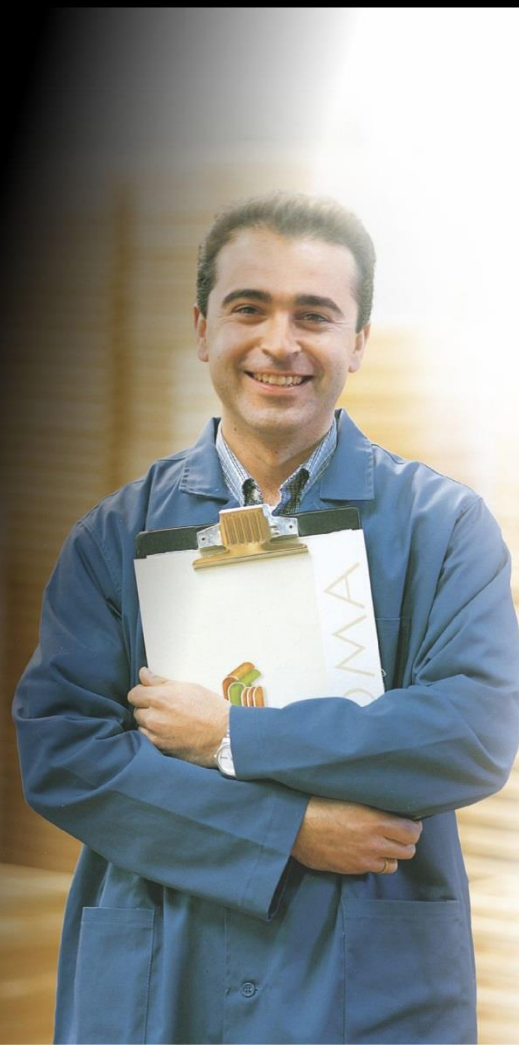

Proma Doors is a leading manufacturer in Spain of wood doors.

At Proma we wish to satisfy the expectations of all our clients so we work enthusiastically day after day to meet the demands and requirements of the market from the latest trends in decoration to evolving international norms.

All within a framework of the highest standards of quality which is our hallmark.

"The world behind a door"

PROMA DOORS

PROMA ORIGINS

Prima Doors was founded in 1989 by a group of carpenters whose dream was to create a factory uniting the skills of craftsmen with the most modern technologies. This has blossomed over the years into installations with the latest machinery supervised by a team of over 200 specialised wood professionals. This together with our loyal client base are our greatest assets.

A long and passionate journey which has transformed the company into a manufacturer with over 62,000m2 of productive space and a capacity of some 800,000 doors a year, and a range which includes wardrobe doors, fire-doors, acoustic doors, security doors, frames, architraves and skirting.

Our objective is to provide the best solutions in decoration, adapting to each market and evolving fashion. Our motto is: "if it doesn't exist let's invent it".
